Enrichment Classes

K-2 Learning Circle

Kindergarten-Second Grade

Thérèse Johannesson [[email](#)]

Science: We're still studying the watershed, and taking a field trip to Loch Lomond Reservoir on March 9. We learned the "Water Cycle Boogie." Our watercolor paintings about water are on display in our original frames.

Moving: We are still doing our "Run for Fun." We have graphed several miles of running. We'll continue in March. Also, Ali, Tristan's mom, has been staying to play games and lead stretching exercises with our students. We appreciate her expertise!

Math: As a common core math activity we worked on our Problem of the Month. Part of Common Core math is also using words to explain how you get your answers. Please mark your calendars for Pi Day, 3/14/17. Our whole school will participate in a Math Night, sharing common core activities and delicious pies!

In the Garden: We're still watching our broccoli, kale and mustard greens grow. We've been watching our campus for evidence of the rain, puddles, saturation, blooms and buds.

Music: We're playing partner song and rhythm games in English and Spanish, adding instruments, and singing in rounds.

Literacy: We'll visit Library on our first Thursday March 2 We continue to play with letters and words, write in our journal and read stories and our agenda daily.

Mindfulness: We practice mindfulness and breathing with guided visualizations. We are learning to be comfortable with calm, so that we can better express ourselves and be present to others. AFE Parent, Jennifer Alexander LMFT, came to our class and read us a book on a related topic, "Puppy Mind."

Physics for Fun

Grades 3-5

Wednesdays 10-12:30 at the Palazzo Studio

Mark Thomas [\[email\]](#)

Thanks to everyone for a great unit of creative and fun experimentation and study of the physics of sound. In March we begin to study and build simple machines. As usual I will ask students to observe the concept in motion, discuss and then build illustrative projects in each class. As we unravel the secrets of leverage, force, energy, inertia and velocity we will use these machines to study Newton's laws of motion hands on. Students will continue to keep a weekly journal and to bring an interesting scientific project, idea or discovery to every class for homework to share with their friends in class.

Around the World in 84 Days

Grades 6-8

Jasmin Gerer [\[email\]](#)

Tuesdays 10:00-12:30 in classroom 2

The second group of middle schoolers is off on their tour of the world by taking a look at maps and what they know about the world. Given a blank piece of paper, the students drew maps of their internal picture of the world and then identified countries on a blank outline map of the world. They'll do that again at the end of the semester to see just how much they've learned.

Our journey started by comparing the US and Canada. Thank you to AFE family Patrick and Everest Franz for telling us about life and politics from their homeland Canada. We then traveled through Central America and South America and practiced some capoeira, a Brazilian martial arts form. Thank you to Rena Durbin and Aliya Glatt for teaching us some fun moves (see photos.) We look forward more movement and learning as we travel to Africa this month.

Questions? Contact Jasmin at 429-3898 x332 or by email.

Ancient Civilizations

Grades 6-8

Tuesdays 10:00-12:30, Palazzo Studio

Nancy Aylsworth [\[email\]](#)

We have begun our study by considering why and how people transitioned from hunting and gathering to farming. We discussed what is considered a civilization and why did ancient civilizations developed in the places that they did. Check out *Guns, Germs, and Steel* for an interesting perspective on this. Students have learned about Mesopotamia with a focus on the inventions that influenced the rest of civilizations that came from there. We tried our hands at drawing cuneiform on clay tablets and listened to parts of the world's oldest written epic, Gilgamesh. Next, we dove into our studies of ancient Egypt. During our Egyptian "banquet" we experienced life in some of the roles of the Pharaohs' kingdoms. We had an interesting field trip to the Rosicrucian Egyptian Museum in San Jose to see firsthand many artifacts that were thousands of years old. Pretty amazing really! Any questions please contact Nancy Aylsworth 429-3898 x 334.

Economics

High School

Thursdays 1-3pm AFE Room 2, starting on 2/3

Peter Deutsch [\[email\]](#)

As a group we have been moving quickly through the introduction and basics of Economics. We have studied economic systems, inequality and equity, demand, supply, prices, behavior, and the typical market structures. Students are just beginning the work for their research paper project that is due 4/13/17. This month we will begin some of the financial literacy studies and also continue with basic economics including business, labor, economic cycles, and economic performance.

Health

High School

Joanne Brown [\[email\]](#)

Thursdays, from 10 a.m. to 12 p.m.

Our journey to health began with a discussion of the six components of health -- mental, social, emotional, physical, spiritual and environmental. These components will be the focus for our class this semester.

Related to mental health, we focused on the topic of gratitude, creating and adding to gratitude journals for several weeks.

Students chose various rejuvenation exercises, such as dog walking, spending time outside, laughing, breathing deeply, writing poetry, etc.

We had a meaningful presentation by the National Alliance on Mental Illness (NAMI).

Thank you to the presenters for sharing their "Ending The Silence" mental health presentation. Topics included what is mental health, facts about mental conditions, what is stigma, and information on where to get help for yourself or others. The presenters shared their own stories about personal mental health challenges and what hurt as well as what helped them. For more information about this presentation, [click this link](#).

Mindfulness coach Leslie Tremaine shared her life stories and mindfulness techniques with us. Students chose mindfulness activities to practice daily for a week and kept mindfulness logs.

CPR trainer Esther Greenburg shared her expertise with our class. She emphasized the importance of calling 911, the 3 First Aid C's -- Check, Call, Care -- what to do if a person appears unresponsive or responsive, and basic CPR techniques. You enthusiastically practiced removing your latex gloves without incurring fluid contamination (AKA shaving cream). About half the class signed up to attend additional hands-on training to earn a CPR certification.

Here's to good health!

Basketball Season is in Full Swing

All 6th to 12th graders girls and boys are welcome to join our team. We practice Mondays & Wednesdays from 3:15 to 4:30 at AFE and have league games every Friday between 10-2. We have had a great turnout this year and have an excited and fun squad. If interested please contact Mark 566-0631.

AFE Soccer

All 6th to 12th graders: It is time to start working on plans for a possible soccer season for AFE this spring. We always have a good time and hope to be able to field a team again. To start with we need to see if there is enough interest and committed players to make a team. Please let Therese or Peter know if you are planning to play and if you will just participate in practices to start or if you will be part of the Friday team. Please pass the word to other possible players so we can figure out the numbers soon! Parent support is also great so let us know if you can help! If we do have a team the practices are TBD, games on Fridays between 10 - 2. We plan to have one or maybe several practices at the end of March and the regular games and practices will start after Spring Break in April. Looking forward to it! [Peter](#) and [Therese](#)

AFE Parent Club

What's the Parent Club?

The AFE Parent Club financially supports the AFE community. In the past, we have provided funds to enable or enhance programs, activities, and events. We also help with supplies and resources. Some of the things that have been supported by the AFE Parent Club in the past few years include: Theater for all ages, sports teams for grades 6-12, Clay Studio, Games Group, Economics class for high schoolers, Orff music for elementary students, family poetry workshops, field trips, staffing for the resource center. We also have donated supplies for Family Art Night; resources—books, games, audio CDs, DVDs—for the resource center; classroom supplies for teacher-led classes; art supplies for the Palazzo Studio; and lots more.

The Parent Club relies on donations and fundraising in order to offer support for all these things. Without fundraising, these programs, classes, activities, and resources will no longer be available at AFE. Please take the time to see how you can help by reading and following the Everyday Fundraising Checklist below that will help you help the Parent Club with as little hassle as possible.

Thank you for supporting the AFE Parent Club. We are a 501(c)3 nonprofit!

—The Parent Club Board

New Leaf eCards

Leaf Community Markets offers natural and organic foods and a convenient way to raise money for our school. Use your eCard when paying for groceries and feel good knowing you and New Leaf are supporting the education of our children. There are 3 New Leaf stores where your cards will work:

Use the card to pay for any of your purchases at any of their stores. Please keep the card and load more money onto it with a check or on-line transfer, up to \$400 at a time.

AFE gets 3% of the money our community members pay for gift cards and loading them. If you shop at Whole Foods, this is a great way that you can contribute to AFE. [Contact Ruthie.](#)

ScripNOW! Electronic Gift Cards

INSTRUCTIONS to sign up & shop the GLSC retailer fundraiser:

[Click here for a list of businesses](#) that offer electronic gift cards & the percentage of your purchase that will go to AFE.

How to:

Set up your Family Account so that you can get started with this program:

1. Go to www.ShopWithScrip.com and click 'Register', then click 'Join a Scrip Program'.
2. Enter our enrollment code (**7L9B8E8F45328**). By entering this code, your account will be associated with our non-profit organization so you can begin earning kickback percentage for AFE!
3. Fill in brief personal information (there is no financial information asked) and click 'I Accept.'
4. Choose two security challenge questions from the list and provide answers.
5. If you want to pay with a check to the AFE Parent Club then you are done with the enrollment process and you can start shopping (see instructions below). If

you want to pay online for faster access to your electronic gift cards, sign up for “Presto Pay”.

How to:

Shop for electronic gift cards “ScripNow”:

1. [Click here for a list of businesses](#) that offer **ELECTRONIC** gift cards.
DO NOT ORDER PHYSICAL GIFT CARDS! Physical gift cards come with an additional fee to AFE. (If you want a physical gift card to Whole Foods, see above.) At some point in the future AFE may make a large order of physical cards from other businesses if we have a high enough interest to justify the cost. For now it is ONLY electronic gift cards “ScripNow” that you can order for yourself online. If you do want a physical gift card for Whole Foods, buy that directly from AFE, NOT online.
2. Open another tab and go to www.ShopWithScrip.com. Click on ‘Shop’ at the top of the page & the alphabet will appear across the top. Clicking on any letter will take you to the page with all the businesses that start with that letter. (There are hundreds & hundreds of retailers in this program but only about 150 of them offer electronic gift cards, so you want the list mentioned above handy when browsing!)
3. Scroll over the business you’re interested in and click on the exclamation point to start your order for an electronic gift card from that business. (If the exclamation point is grey it means that business does not offer electronic gift cards - refer to the link of businesses that do offer them). Add the \$ amount you want to buy from that business and click on 'Add to Cart'. Keep shopping and adding gift cards to your cart until you have all that you want for now.
4. When you’re done shopping, go to your cart by clicking on it at the top of the screen. For Payment Options, if you don’t have a Presto Pay account click 'Check' on the tab above the 'Order Summary' then click 'Submit Order'.
When I get your check I’ll approve the order and an email will be sent to you with confirmation your electronic gift certificates are available.

THANK YOU ALL FOR HELPING TO SUPPORT
