

## Policy for Non-AFE and Ex-AFE Students

17 February, 2012

At AFE we cherish the wonderful, supportive, respectful interactions among our families and students. To promote this feeling of community we want to honor students and families building positive relationships. We strive to do this as teachers in our classes and through educational activities. However, we may encounter problems when we are not directly supervising students and cannot observe or respond to their behavior. As safety is a top priority on our campus, we have developed a policy that directly addresses the topic of non-AFE students on our campus.

If students are on campus, at the RC or on the grounds, we are bound by law to follow our School District Policy:

**Any person not enrolled at a school may not be on campus during school hours without permission.**

### **AFE Campus Policy for Visiting Students:**

- Must have staff permission and sign in with RC staff.
- Need to be here for a specific purpose.
- Must seek prior administrative approval, if they would like to participate in an AFE educational activity.

Students who have been dismissed from AFE need to meet with the administrator to obtain prior approval to be on the AFE campus.

If you have questions regarding this policy, please direct them to your consultant teacher or our principal.

Thank you,  
AFE Staff and Principal
